

WARHAMMER 40K FRIENDLY CANCON 2026

Format

Your Army will be **1575** points **Strike Force**.

We are allowing one (1) BIG SCARY THING unit to be included in your army, BUT your entire list needs to be submitted. Please understand that in allowing a single Unit of this type, we still expect that the list will be "Friendly". If we note hyper-synergies, mega-sweat or just plain yuckiness we don't feel is in the spirit of the event we're trying to run here based on the addition of these units, then your list will likely need to be reworked and resubmitted.

Please remember the 40K Friendly EVENT is about fun and chucking dice and pushing plastic dollies around on a table with folks are looking to avoid the meta-chasing that has become commonplace in other 40k events. If meta builds are your jam, more power to you, but this isn't the event for you. Head on over to the Competitive 40K event being offered this year 😊

*For the purposes of our event, "BIG SCARY THING" Units are units with any of the following keywords;

- Titanic
- Primarch
- Fortification

Lists are to be submitted via the official form (coming soon). Lists will be vetted. You will receive a confirmation email to the address you provide in the form if your list is deemed to be ok. If you do not submit your list prior to the event, you list will be vetted on the first morning with no opportunity to adjust it. This process may have models or units not be allowed to be fielded.

Army lists are to be submitted before Midnight Friday 12th of January 2026. Save a copy of the list and the rules on this day. If there updates or FAQs released after this date, we may not permit them at the event. We are aware when these things happen, so please don't ask us if we will. We will make an announcement either way as to the validity of any rules updates after 12 January 2026.

Send any List enquiries to : canconfriendly40k@gmail.com
